This qualification is the entry level to a career path in one of the areas of specialisation in Occupational HSE. It is generic enough to allow maximum mobility within the field of application.

Obtaining formal qualifications in HSE will enable the learner to operate in a wide range of environments. This enhances the employment opportunities of learners and also ensures a wider coverage of HSE Practitioners in the work environment.

Learning Assumed to be in place at NQF level 1:
Mathematical literacy
Communication
Computer literacy

Contact sessions run consecutively for 3 days per month at the Sheqmax offices in Krugersdorp. Client site arrangements can be made on request.
